Kind attention: Mr. Thomas Kwok/ the Chairman

Subject: Construction and Finance Opportunity in Oman

Greetings,

We hereby address the aforementioned subject and present a Construction and Finance opportunity that we believe in. Our faith extends not only to the nation of Oman but also to its rich history, promising future, and immense potential. We strongly advocate for value-driven developments, which not only generate desired profits but also foster positive involvement, leadership perception, and significant contributions to socio-economic and global development endeavors. We firmly believe that joining this blessed initiative is both our responsibility and an opportunity to thrive.

We would like to express our sincere appreciation for your enthusiasm and passion for achievements, as it aligns perfectly with our corporate vision, mission, and motto: "PASSION FOR PERFORMANCE". AMERICAN MANAGEMENT AND DEVELOPMENT SPC, and on behalf of our esteemed Partners and Affiliates, we focus on VALUE DEVELOPMENTS, particularly those that are high-profile and high-net-worth.

Our concept of "VALUE DEVELOPMENTS" goes beyond monetary considerations. Moral value takes precedence, and achievements are given utmost priority. Our vision entails a state-of-the-art, iconic design concept that embodies sustainability, intelligence, contemporary elements, and an Islamic Twist. We aspire to achieve platinum-grade certification from esteemed institutions such as LEAD, highlighting our commitment to creating a landmark development that impacts not only Oman but also contributes to national socio-economic growth and global recognition. This unprecedented project will cater to a niche, high-profile economy centered around Precious Metals, particularly GOLD,

Gemstones, and JEWELRY. Our marketing efforts will be extensive, encompassing strategic communications to position and promote this remarkable development.

We are delighted to present our vision for the said plot, which spans approximately 600,000 square meters. The total budgeted investment is approximately \$2.6 billion, inclusive of the property's value. The initial required capital is \$500 million, which can be raised in increments over three years.

On a different note, while the plot is ideally located at the heart of Muscat, the capital of the Sultanate of Oman, a rectangular shape with an elevation starting at 100 meters above sea level and as high as 150 meters, a unique landscape among the GCC capitals; bordered with two highways, namely Muscat ring road from one side, airport heights road and two Valleys on the other sides; part of IRFAN, the Future City of Muscat and adjacent to the main area of IRFAN. Only less than ten minutes away from the airport. The total land area is almost 600'000 SQM, the Land Use Area is estimated at 375'000 SQM, the BUA/ Build Up Area is estimated at 1'540'000, broken down into 350'000 SQM of Commercial Buildings, 240'000 SQM of Hotels and Touristic Amenities and 950'000 SQM of Residential Units. A Niche, High profile mixed-use development consisting of almost 3'700 Units .

Almost all the properties will share the same view, overlooking the airport, major parts of Muscat, and the Sea shores, as well as your ST. REGIS AIMOUJ Muscat property. Cascading levels carefully located within the property will allow most of the units to enjoy almost the same view.

We trust that you will gather comprehensive information about the Sultanate of Oman, including economic and social indicators, property development, and market dynamics of Precious Metals, Gemstones, and Jewelry, both within Oman and beyond.

Moreover, it is crucial to emphasize that Oman holds a unique position as a nation guided by a longstanding strategy of friendship with all nations. Oman remains neutral and impartial in conflicts, always striving for positive neutrality and seeking peace. This unbiased approach establishes Oman as a reputable and positive mediator.

Additionally, Oman maintains strong, longstanding family ties with African nations, as well as other regional and Asian countries. The presence of a diverse

population with ancestral connections to these nations creates a unique mosaic within Omani society and provides an exceptional opportunity to source Precious Metals and Gemstones.

On a separate note, it's important to state herewith that NAFIISAH, Oman Gold City not only enjoys strong support from the local authorities but also benefits from substantial royalty blessings and support. The realization and prosperity of NAFIISAH hold great promise for the economy.

Unlike the UAE, which houses over ten Gold Refineries, Oman currently does not possess such facilities. However, the existing regulations favor the development of this industry and the economy as a whole. By attracting professional institutions involved in trade, production, import, and export, Oman offers an environment conducive to success.

The target audience for retail comprises two main segments: 20% consists of local citizens and residents, while the remaining 80% consists of visitors from abroad, primarily from regional and neighboring countries. The development will serve as a jewelry icon, attracting professionals and enthusiasts alike. It will not only offer a wide range of jewelry but also provide a unique marketing experience that encompasses savings, investments, and educational opportunities through permanent and temporary exhibitions, as well as trade prospects. This innovative global approach will position NAFIISAH as a sought-after destination and a dynamic marketplace.

Our portfolio includes premium and unique freehold properties, including standalone villas, duplex villas, apartments, and hotel residences. These properties are designed by international jewelry brands and branded accordingly, featuring renowned names such as CHOPARD, BVLGARI, CARTIER,

	Land Use	Commercial BUA	Hotels BUA	Hotel Residence BUA	Touristic BUA	Residential BUA	Total BUA	Commercial Units	Hotel Residence Units	Residential Units
Year 3	100,000	75,000	35,000	30,000	65,000	150,000	290,000	750	18+48	50+100
Year 5	75,000	100,000	35,000	25,000	60,000	200,000	360,000	500	18+48	50+100
Year 7	75,000	100,000	35,000	35,000	70,000	300,000	470,000	1000	0+48	100+100
Year 10	75,000	100,000		45,000	45,000	300,000	445,000	500	0+106	100+100
Totals	325,000	375,000	105,000	135,000	240,000	950,000	1,565,000	2'750	252	700

Of course, in brief, the estimated values are as follows:

	US Dollar Cost/ SQM	US Dollar Selling/ SQM	US Dollar Annual Revenues in Millions	ROI	Investments in Millions	Sales in Millions	Profits in Millions
Residential Units	1500	3'500	N/A	250%	1'425	3'325	1'900
Commercial Units	1500	4'000	N/A	300%	562.5	1'500	937.5
Hotels' Residence	2'500	4'500	N/A	80%	337.5	607.5	270
Hotels	2'500	N/A	46'800	Annually 18%	262.5	N/A	TBD
Totals	N/A	N/A	46'800	`	2'587.5	5'432.5	3'107.5

The current selling rates for the residential units are OMR 1'200, 1'500, and 1'800/ SQM, based on the quality and the location; we have taken the average of OMR 1'345.

We also need to consider 10% of the net revenues as an operating cost budget, which will affect the listed profits numbers. It's also imperative to highlight herewith that these numbers and values reflect only the real estate values and certainly do not include any operational revenues as well as costs, pertaining to the Precious Metals, Gemstones, and Jewelry, as well as other related amenities.

Finally, we look forward to hearing from you and ideally meeting with your team to answer all your questions and elaborate on this potential opportunity.

I truly hope these details will shed light on the development size, dynamics, and expectations.

Please feel free to contact me for any further details and clarifications. I hope this is clear enough for your plans and considerations.

Look forward to hearing from you.

Warmest regards,

Raed Darwish
Chief Executive Officer
